Comment: I am in agreement with the proposed regulations and think they will eliminate confusion on both sides of the state line. I would also suggest that as Louisiana moves forward with a discussion on slot limit lakes within the northern portion of the state that consideration be given to designating one body of water with a larger, i.e. 22 inch slot. Not every angler fishes tournaments, and not every angler harvests what he catches. Some anglers would like the opportunity to routinely catch fish much larger than 18 inches and there is no local body of water which addresses this issue. Thanks for the opportunity to participate in the discussion.
